

**Fun Squares**  
approximately 40" by 40"

**Kit Contains:**

Twenty-five (25) print 5" squares  
Twenty-four (24) solid 5" squares  
4 4.5" by WOF strips for borders

**Top Construction**

1. Join the 5" squares in a 7 by 7 layout, putting print squares in the corners. The center should measure 32" square at this point. Don't worry if yours measures differently; simply adjust border lengths accordingly.

2. Add border strips. Marvel at how easy and quick this was!

**Finishing**

Quilt may be enveloped and tied (or tacked by machine.) Alternatively, quilt and bind in the usual manner.
